**Poonima R** • 1st

CS Student at WU University | Aspiring Software Engineer | Python | Github

20m • 🌐

Building my LinkedIn profile has helped me organize my skills, interests, and learning journey as a Computer Science student. I'm currently learning Python, C, SQL, Git, Github, and web development through academic and personal projects. I'm excited to keep learning, building practical projects, and gaining experience in software development.

Great insight! As a CSE student, I'm also exploring software development and learning through practical projects. Thanks for sharing!
